

Welcome letter of the President of the Cardiology society of Serbia

Pozdravni govor predsednika Udruženja kardiologa Srbije

Poštovani članovi Udruženja kardiologa Srbije,

Zadovoljstvo mi je da Vas obavestim da će se XIX Kongres Udruženja kardiologa Srbije održati od 17. do 20. oktobra 2013. godine u objektima hotela „Palisad“ na Zlatiboru. U susret ovom centralnom kardiološkom događaju u Srbiji, želim da Vas upoznam sa najznačajnijim aktivnostima koje su realizovane u proteklom dvogodišnjem periodu.

Uspešno je organizovan XVIII Kongres Udruženja kardiologa Srbije (24-27. novembar 2011, hotel „Continental“ Beograd), koga je obeležila rekordna posećenost i interesovanje domaćih lekara. U periodu koji je usledio, načinjen je niz strukturnih reformi našeg Udruženja, a sve u cilju unapređenja demokratičnosti, transparentnosti i efikasnosti rada. U tom smislu, izabrano je novo rukovodstvo svih 17 radnih grupa (predsednici i budući predsednici) i 10 podružnica UKS (predsednici i potpredsednici). Takođe, shodno osavremenjavanju Statuta, i odlukama Ustavnog suda Republike Srbije, izglasane su promene 15 tačaka Statuta UKS, nakon čega je započet proces izbora novog rukovodstva UKS prema novom Statutu.

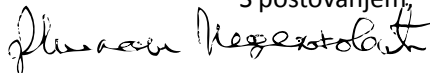

Od posebnog značaja za rad Udruženja kardiologa Srbije je internet sajt (www.ukrsb.org) koji je osavremenjen i koji se redovno ažurira, a zabeležili smo i rekordnih 225.000 poseta (informacija na dan 27.9.2013). Sajt sada omogućava personalizovani pristup članovima UKS koji putem sajta mogu ostvariti svoja statutarna prava, poput glasanja u okviru Udruženja. Na sajtu se nalaze i svi brojevi časopisa „Srce i krvni sudovi“ koji izlazi redovno četiri puta godišnje i koji se na poštansku adresu dostavlja svakom članu Udruženja. Važno je istaći da se naš časopis indeksira kod Evropskog udruženja kardiologa, i da je svega nekoliko nacionalnih udruženja kardiologa u Evropi postiglo ovaj cilj. Naše Udruženje broji 798 članova, i po prvi put je baza članstva ažurirana, a naši članovi mogu svoje podatke ažurirati na sajtu Udruženja (na personalizovanoj, lozinkom zaštićenoj sekciji sajta).

Udruženje kardiologa Srbije, u saradnji sa Francuskim udruženjem kardiologa, organizuje sedmi po redu kongres pod nazivom „U srcu Evrope“, koji će se po prvi put održati u Srbiji, u hotelu „Metropol“ 23. novembra 2013. godine. Na kongresu se očekuje veliki broj učesnika iz Francuske i Srbije.

Ustanovljena je nagrada „Zlatna medalja Udruženja kardiologa Srbije“ koja će se dodeljivati istaknutim pojedincima za humanitarni rad u lečenju pacijenata sa kardiovaskularnim bolestima, kao i afirmaciji Udruženja kardiologa Srbije i srpske kardiologije uopšte.

Rukovodstvo UKS želi svim našim članovima i gostima zanimljiv i edukativan kongres, kao i ugodan boravak na Zlatiboru u renoviranim hotelima i kongresnim objektima.

S poštovanjem,

Prof. dr Milan A. Nedeljković
Predsednik Udruženja kardiologa Srbije

Dear members of the Cardiology Society of Serbia,

It is my pleasure to inform you that the 19th Congress of the Cardiology Society of Serbia will be held from October 17-20, 2013, in the facilities of the hotel “Palisad” Zlatibor. Towards this central cardiac event in Serbia, I want to introduce you to the most important activities that were implemented in the past two years.

The 18th Congress of Cardiology Society of Serbia (November 24-27, 2011, hotel “Continental”, Belgrade) was successfully organized, and was marked by record attendance and interest of local doctors. In the period that followed, a series of structural reforms of our Society were made, with the aim of improving democracy, transparency and efficiency of work. In that sense, the new leadership of 17 working groups (presidents and future presidents) and 10 subsidiaries (presidents and vice-presidents) were elected. Also, according to the modernization of the Statute and the decisions of the Constitutional Court of the Republic of Serbia, the changes of 15 points in the Statute of our Society were voted, after which the process of selecting new leadership under the new Statute began.

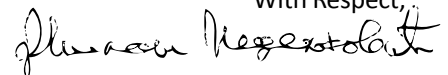

Of particular relevance to the work of the Cardiology Society of Serbia was the website (www.ukrsb.org), which was regularly updated, and we also recorded a record 225,000 visits (information as of 9/27/2013). The website now enables personalized access to our members, which can achieve their statutory rights, such as voting in the Society. On the website you can find all issues of the journal „Srce i krvni sudovi“ (“The heart and blood vessels”) published regularly four times a year and sent on the address to every member of the Society. It is important to emphasize that our Journal is indexed by the European Society of Cardiology, and that only few national societies of cardiologists in Europe have achieved this goal. Our Society has 798 members, and for the first time our members database is up to date and our members can update their information on the website of the Society (on a personalized, password-protected section of the site).

Cardiology Society of Serbia, in cooperation with the French Society of Cardiology will organize the seventh congress entitled „U srcu Evrope“ (“In the Heart of Europe”), which will be held for the first time in Serbia, at the hotel “Metropol”, November 23, 2013. A large number of participants from Serbia and France are expected at the congress.

The award „Zlatna medalja Udruženja kardiologa Srbije“ (“The Gold Medal of the Cardiology Society of Serbia”) was established and will be given to individuals for humanitarian aid in treating our cardiovascular patients, as well as for outstanding achievements in the promotion of the Cardiology Society of Serbia and the Serbian cardiology in general.

Our executive board would like to wish all our members and guests interesting and educational congress, as well as comfortable accommodation in renovated congress hotels and facilities of Zlatibor.

With Respect,

Prof. dr Milan A. Nedeljković
President of the Cardiology Society of Serbia
